

Vent – Tech Quality Policy

Vent-Tech Ltd is committed to providing product and services which meet the client's expectations in terms of quality and reliability and will ensure that adequate resources are available to sustain our planned business objectives.

In pursuit of it's primary objectives it is the policy of the organisation to commit and maintain a quality system designed to meet the requirements of EN ISO 9001:2008 and all relevant statutory and regulatory requirements.

The organisation has set and regularly reviews it's quality objectives. Procedures define how we operate and Senior Management commitment includes providing adequate physical and human resources.

Client service is an essential part of the quality process and to ensure this is fulfilled, all employees receive training to ensure awareness and understanding of quality and its impact on client services. Vent-Tech Ltd ensures that the Quality Manual, Procedures and Forms are understood and used throughout the organisation.

The organisation is committed to this standard and maintains its awareness for continuous improvement, through regular reviews of the manual documentation and the goals and objectives. The system is continuously audited internally and has an annual independent audit.

The Directors ensure the continuing suitability of this policy, our objectives and the Quality Management System and is monitored by our Quality Manager whose duties will be carried out as defined within section 9 of our Quality Manual.

The requirements of the organisations quality system are mandatory and all personnel have a responsibility and obligation to it.
